

# St. Croix River Map & Checklist

## Map 2: Riverside Landing to Highway 70

*This river map provides information for the 46.5 mile section of the St. Croix River between Riverside Landing and Highway 70 Landing. This checklist will help you to have a safe and enjoyable trip!*

☐ **Personal Floation Devices (PFDs) are required** onboard for each passenger on all vessels. **Children under the age of 13 must wear a properly fitting PFD** while in moving vessels.

☐ Avoid **overhanging trees** that are in the water. They can overturn a canoe and trap canoers underwater.

☐ **Open fires** are permitted only in steel fire rings or grills. Dead and down wood may be collected for firewood except from islands. Fires must be out and ashes cold before you leave the area.

☐ **Camping** is permitted in designated sites only. There is a one night limit at each site. Most campsites accommodate 3 tents. Group sites accommodate up to 6 tents.

☐ **Primitive toilets** are available at campsites and landings. At areas without toilets on the river, bury human waste 6 inches deep and at least 100 feet away from river and campsites.

*pimpleback mussel*

It is illegal to collect or disturb freshwater mussels or their shells.

☐ **Jet ski** use is prohibited on this stretch of river.

☐ **Deer ticks** found along the river can carry Lyme disease. Check often for ticks and know the symptoms of the disease.

☐ It is illegal to shoot—or even possess—**fireworks** on the river.

☐ **Riverside Landing** will be undergoing improvements that involve major construction during 2004. Drinking water will not be available until the renovation is complete.

☐ **Drinking water** is provided at some landings. See reverse for locations. River water must be treated to protect against giardia.

☐ **Carry out all trash.** Bring trash bags with you.

☐ **Glass beverage containers** are prohibited at the Riverway.

Rapids on this stretch of river are usually classified as Class 1, the easiest class.
